Zeichenkonkordanz

“Zeichennamen” bzw. Lautwerte, die bei Borger, Mesopotamisches Zeichenlexikon (Münster 2010), nicht aufgeführt sind, werden in eckige Klammer gesetzt (z. B. KISAL mit dem Lautwert [GIPAR_x]; [LAGAB_xMU]).

Wenn Formen nur einmal belegt sind, ist die konkret vorliegende Transliteration vollständig wiedergegeben, d.h. einschließlich der Markierungen des Erhaltungszustandes (z.B. a-a!-^rda⁷-[e-x]).
